For Group discussion:

1. How good are you at time management? What would make you a better time manager?
2. What does your daily schedule say about your life? About your priorities? What affect does your daily schedule have on your personal spiritual growth/service? What challenges would you face if you decided to alter your daily schedule?
3. Read Psalm 90:10-12. What is Moses' message to our society?
4. From the sermon: “God created us on purpose for his purpose.” Is that different from the often heard, “God has a purpose for your life”? If so, how?
